Good afternoon everyone,
Thanks for all the reviews and suggestions to improve the copy, we are now in the production phase of the video, attached is the final script.
The goal is to have the video completed by Monday, we'll share once viewed by HQ.

Have a wonderful Thanksgiving,

Subject: HQ Video Assignment

Good evening everyone,

Attached is the DRAFT script produced in an attempt to meet everyone's needs in telling their respective story. Please review with appropriate management and send any revisions to me as soon as possible.

RGV Comms FCB will voice the script by 2pm tomorrow to ensure the editing phase begins and the production deadline of Monday, Nov. 28th is met.

Subject: Video Support

Chiefs,

Thank you! Your teams are collaborating with (b)(6)(b)(7)(C) and our Comms team to produce several videos describing how our facilities affect operations at our 5 operating platforms – camps, FOBS, checkpoints, stations & sectors. This is in prep for potential Presidential team briefs. Pictures of rusting pipes don't tell compelling arguments. A 90-second video with an agent talking about who they are, where they are and how the facilities affect their ability to apprehend aliens tells a whole different story. So let me say thanks again!

I know your teams are working the first raw footage to produce a 5-min broad USBP video now. Please make sure they get that footage to (b)(6);(b)(7)(C) in RGV ASAP. (They know the deadlines). Phase II will be producing 90-second videos on each of the 5 platforms.

Thanks again and I hope you have the warmest of Thanksgivings!

Deputy Ortiz & Respected Leadership,

Good morning everyone, to build upon the last email from DC (b)(6);(b)(7)(C)... attached are the scripts that were sent to RGV to begin working one unified script for the video project. Although RGV has a team working the script based upon the attached documents, we are still requesting that you send bullets on each of the challenges and successes of your assigned

There are key updates to keep in mind;

- One video has been approved by the HQ team who assigned this project
- Tucson is now working up information on the (b) (7)(E) FOB rather than the (b) (7)(E) FOB.
- Swanton Sector has been added to list of the 5 other sectors being highlighted, bringing the total number of sectors highlighted to 6
 - (b) (7)(E) station bullets/info are needed asap for the script (b) (7)(E), (b) (5) (b)(6);(b)(7)(C)
- The deadline for scripts is Friday, November 18th COB
- POCs for photographs and video are needed for (b) (7)(E)
- Once we have sector-level approvals for the final version of the DRAFT script, RGV (DCPA Ortiz) will route the script to HQOBP for final approval.
- Do not edit a video vignette, RGV will build a 5-7 minute video presentation
- B-Roll, meaning quality pictures and video are needed to match your scripts. We also need exterior wide shots of your facilities.
- OBP HQ has set a deadline for this video of Monday, November 28 – video name “Making Facilities Great Again!” ... I’m kidding!!!! Just ensuring you are all paying attention.
- ***** WE NEED TO KNOW WHAT YEAR EACH FACILITY WAS COMPLETED
- PLEASE do not send scripts on this string, have your writers send bullets directly to SOS

Chiefs,

Thank you! Your teams are collaborating with [REDACTED] (b)(6);(b)(7)(C) and our Comms team to produce several videos describing how our facilities affect operations at our 5 operating platforms – camps, FOBS, checkpoints, stations & sectors. This is in prep for potential Presidential team briefs. Pictures of rusting pipes don't tell compelling arguments. A 90-second video with an agent talking about who they are, where they are and how the facilities affect their ability to apprehend aliens tells a whole different story. So let me say thanks again!

I know your teams are working the first raw footage to produce a 5-min broad USBP video now. Please make sure they get that footage to [REDACTED] (b)(6);(b)(7)(C) in RGV ASAP. (They know the deadlines). Phase II will be producing 90-second videos on each of the 5 platforms.

Thanks again and I hope you have the warmest of Thanksgivings!

HQ USBP is in the process of developing Chief Morgan's presentation for President Elect Trump's team. My staff is working on the facilities piece and we need your help. I've described what we're trying to achieve below, but in reality it's probably easier to have a telcon this afternoon to explain and answer questions, especially since this is a very short turn time. We've scheduled a 14:30 EST telcon for today to discuss this email. Call in number is (b) (7)(E). The participant code is (b) (7)(E). I hope each of you can have someone call in to discuss this effort. In the meantime, let me try to explain what we're trying to accomplish so you have some prep.

ALCON,

On behalf of Deputy Chief Raul Ortiz, attached is a ppt on "The Shift" which depicts migration patterns along the SWB from the mid 90's to present day.

Please click on the following link to watch the video presentation;

If only 5 sectors have been identified to work on this project, scripting is key. Perhaps we follow the format of "The Shift" and discuss challenges then turn to successes.

Chiefs/Deputies:

As you know, we are moving fast and furious here at HQ to be prepared for the new Administration.

In support of the 2016 Presidential Team, CBP has requested USBP provide requirements for fencing. This RFI is **not** for replacement It is for new construction. HQ already possesses an up-to-date list for replacement fencing.

The attachment contains the miles of new construction for each sector. Please confirm that the requirements for new fencing are correct. If not correct, add additional miles (or correct the number) as required for your sector. You should be able to substantiate new requirements via data collected by your sector during the Capability Gap Analysis Process. CGAP information is not required as part of this response, but may be requested at a later date.

Please provide your responses to the gentlemen on the CC line for compilation.

Yes Sir. They also want separate 90 second vignettes broken down by *station, sector, FOB and checkpoint* but I think we can knock this out using the same info/videos the sectors are already providing.

Thanks,

(b)(6);(b)(7)(C)
(b)(6);(b)(7)(C)

(b) (5),

(b) (5)

Please start working on your raw video vignettes, 60 seconds each, and RGV will build a five minute presentation that equally represents each sector's facility challenges (and/or successes).

In short, we are looking for your concurrence, by COB today, to build the script from your previous facility submissions and to use that script (once approved by you and OBP) to voice over and edit the raw video footage you submit. The sooner we receive your concurrence, the sooner we can get started.

Thanks and please let me know if you have any questions,

Deputies/MRO Div Chiefs:

HQ USBP is in the process of developing Chief Morgan's presentation for President Elect Trump's team. My staff is working on the facilities piece and we need your help. I've described what we're trying to achieve below, but in reality it's probably easier to have a telcon this afternoon to explain and answer questions, especially since this is a very short turn time. **We've scheduled a 14:30 EST telcon for today to discuss this email. Call in number is (b) (7)(E). The participant code is (b) (7)(E).** I hope each of you can have someone call in to discuss this effort. In the meantime, let me try to explain what we're trying to accomplish so you have some prep.

Thank you ma'am.

Swanton friends, important notes to keep in mind;

- One video has been approved by the HQ team who assigned this project
- Tucson is now working up information on the (b) (7)(E) FOB rather than the (b) (7)(E) FOB.
- Swanton Sector has been added to list of the 5 other sectors being highlighted, bringing the total number of sectors highlighted to 6

(b) (7)(E) station bullets/info are needed asap for the script (b) (7)(E), (b) (5)

- The deadline for scripts is Friday, November 18th COB
- POCs for photographs and video are needed for (b) (7)(E)
- Once we have sector-level approvals for the final version of the DRAFT script, RGV (DCPA Ortiz) will route the script to HQOBP for final approval.
- Do not edit a video vignette, RGV will build a 5-7 minute video presentation
- B-Roll, meaning quality pictures and video are needed to match your scripts. We also need exterior wide shots of your facilities.
- OBP HQ has set a deadline for this video of Monday, November 28 – video name “Making Facilities Great Again!” ... I’m kidding!!!! Just ensuring you are all paying attention.
- ***** WE NEED TO KNOW WHAT YEAR EACH FACILITY WAS COMPLETED

PLEASE do not send scripts on this string, have your writers send bullets directly to SOS

Chiefs,

Thank you! Your teams are collaborating with (b)(6);(b)(7)(C) and our Comms team to produce several videos describing how our facilities affect operations at our 5 operating platforms – camps, FOBS, checkpoints, stations & sectors. This is in prep for potential Presidential team briefs. Pictures of rusting pipes don't tell compelling arguments. A 90-second video with an agent talking about who they are, where they are and how the facilities affect their ability to apprehend aliens tells a whole different story. So let me say thanks again!

I know your teams are working the first raw footage to produce a 5-min broad USBP video now. Please make sure they get that footage to (b)(6);(b)(7)(C) in RGV ASAP. (They know the deadlines). Phase II will be producing 90-second videos on each of the 5 platforms.

Thanks again and I hope you have the warmest of Thanksgivings!

HQ USBP is in the process of developing Chief Morgan's presentation for President Elect Trump's team. My staff is working on the facilities piece and we need your help. I've described what we're trying to achieve below, but in reality it's probably easier to have a telcon this afternoon to explain and answer questions, especially since this is a very short turn time. **We've scheduled a 14:30 EST telcon for today to discuss this email. Call in number is (b)(7)(E). The participant code is (b)(7)(E).** I hope each of you can have someone call in to discuss this effort. In the meantime, let me try to explain what we're trying to accomplish so you have some prep.

Chiefs/Deputies:

As you know, we are moving fast and furious here at HQ to be prepared for the new Administration.

In support of the 2016 Presidential Team, CBP has requested USBP provide requirements for fencing. This RFI is **not** for replacement It is for new construction. HQ already possesses an up-to-date list for replacement fencing.

The attachment contains the miles of new construction for each sector. Please confirm that the requirements for new fencing are correct. If not correct, add additional miles (or correct the number) as required for your sector. You should be able to substantiate new requirements via data collected by your sector during the Capability Gap Analysis Process. CGAP information is not required as part of this response, but may be requested at a later date.

Please provide your responses to the gentlemen on the CC line for compilation.

RESPONSES ARE DUE NLT 0900 Tomorrow

As per instructions below, pending Sector approval, please forward to AC Beasley once obtained.

WHAT:

LRT Communications Branch would like to request permission to utilize an IRIS quadcopter with video recording capabilities to obtain B-Roll. The B-Roll will be used to produce a video as requested by USBP HQ who are in the process of developing Chief Morgan's presentation for President Elect Trump's team.

The flight pattern will not violate FAA laws or regulations since it will not be flying over crowds, restricted airspace, or over 400 feet.

WHERE:

We will be filming the following locations:

Laredo Sector Headquarters (50 ft. high)

(b)(7)(E) Station (75 ft. high)

(b)(7)(E) Checkpoint (75-100 ft. high)

WHEN:

Laredo Sector Headquarters on Friday, November 18, 2016 at 2:00 pm (not to exceed 1 hour)

(b)(7)(E) Station on Friday, November 18, 2016 at 10:00 a.m. (not to exceed 1 hour)

(b)(7)(E) Checkpoint on Friday, November 18, 2016 at 11:00 a.m. (not to exceed 1 hour)

I apologize for the short notice, but we have a short deadline for this project.

Thank you for the assistance,

Hello (b)(6);(b)(7)(C)

Attached you will find the most up to date guidance on the use of SUAS. I would anticipate this guidance changing in the near future as USBP has been working with the FAA to create agency specific regulations for using them.

Until then, however, the attached guidance stands.

Basically, each Sector that has wanted to use their SUAS for video production has submitted a request (usually just an email) through their chain of command to me. As soon as I receive the request, I submit it to the Chief of Staff for final "HQ approval".

What our command staff will like to know before authorizing the use is the following:

- 1) The purpose of the flight.
- 2) When the flight is planned for.
- 3) And that the flight will not violate current FAA laws and regulations (i.e. no flying over crowds, in restricted airspace, etc.)

If you have any additional questions or need more information, please feel free to let me know.

Respectfully,
